

**REMARKS**

**I. Status of Claims**

After the above amendments, claims 1, 3, 4, and 6-16 are pending. Claims 1, 10, and 13 are independent.

**II. Claims 1, 3, 4, and 6-9**

In the office action, the Examiner indicated that claim 5 would be allowable if rewritten into independent format. Applicants have amended claim 1 to incorporate the limitations of claim 5. Thus, claim 1 is now allowable.

**III. New Claims 10-16**

Applicants have added new claim 10-16 to claim additional features of the present invention. The cited references do not disclose or suggest the features claimed in these claims. For example, both independent claim 10 and independent claim 13 recite features of the main gear, including, for example, a slide wing part that protrudes from the main gear to contact a non gear part of the first loading gear. This feature is not disclosed or suggested by the cited references. Accordingly, independent claims 10 and 13, and their dependent claims are all allowable.

**IV. Conclusion**

In view of the above, it is believed that the above-identified application is in condition for allowance, and notice to that effect is respectfully requested. Should the Examiner have any questions, the Examiner is encouraged to contact the undersigned at the telephone number indicated below.

Respectfully submitted,

Michael E. Stimson  
Reg. No. 41,333  
Attorney for Applicant
